Around the World in 80 Days (Reading level 4-7)

Duration-

June 11th - August 6th (Nine Mondays)

Mondays throughout the summer

Class time 9 - 11 am

Layout-

9:00 - 9:30 (class discussion on previous week of reading)

9:30-10:50 (STEM related project that is paired with novel that is being read)

10:50 - 11:00 (cleanup and pickup)

Financial-

Price per student - \$150.00

Multi-family students - \$150.00 for first students, \$50 off for every student after

Books and STEM materials included in price

Payments for camp will be due anytime before the start of the 18-19 school year.

Installment options are also available

Benefits-

- Students will be reading throughout the duration of the summer (no dreaded summer drop off)
- Students will be engaged with STEM related projects that pertain to the books being read
- Students will be immersed in the four C's of STEM, creativity, critical thinking, communication, collaboration with friends
- A google classroom will be paired with the class so students that have a busy summer will not feel out of the loop and will not fall behind in their reading.
- Google classroom will have reading assignments posted, mini chapter quizzes, articles, activities, and video clips that pair with novel, and tasks throughout the week for students to take their reading to the next level (optional for differentiation)

Projects-

Designing a functioning radio system

Tinker CAD activities

Creating a clock Tower

Exploring gears

Creating Air powered modes of transportation

Exploring vehicles from the past, present, and future
