

November IS Newsletter

ART
Mrs. Shaarda

Third through sixth graders completed their pointillism projects and made a beautiful nativity scene this past month! They learned about tints and shades and how to create the appearance of light with paint. More Christmas projects to come!

Kindergarten through second graders completed a torn paper owl project, made a 3-D thankful pumpkin, and are currently working on some very pretty Christmas ornaments!

It is a pleasure to see the kids create a project they can be proud of and enjoy the process of creating as well!

SCIENCE
Mrs. Them

In November the K-2 classes studied habitats. We began by learning that God created a habitat for each part of His living creation. With wisdom, purpose and love all living things have a habitat. Each habitat must provide shelter, oxygen, food, and water to be successful. The older students also completed classification activists for the different animal groups.

The third-sixth grade class learned about electricity. We discussed that the movement of electrons creates electric current and this current can flow in a closed circuit. All the components of this great source of energy were made during the first week of creation. Students experimented with batteries, conducting wires, circuit breakers and lightbulbs. They had great fun and we will continue this project by experimenting on different types conductors at our next class.

MUSIC
Miss Noble

All of the music classes have been hard at work learning the words, rhythms and melodies for the Christmas musical songs! We have been rehearsing with the actors during chapel and all of the students are doing a great job. We have been learning the choreography.

We should be ready to perform on December 4 at 7pm. An invite is going home with the kids on Friday to invite friends and family.

We are praying for those who will be coming to the play that if they don't know Jesus their hearts will be open to the gospel message we will be sharing.

P.E.
Mrs. Byler

In P.E. during November, the kids started playing hockey and have been practicing specific skills. We have been doing drills on learning how to handle the puck and how to pass to partners. We will continue to practice hockey skills and play an actual hockey game before Christmas.

Pics from November classes & new games

Field Trip - Movement Lab

An American Ninja Warrior Gym

Students ran an American Ninja Warrior course with the same obstacles they use on the show! One obstacle was the infamous warped wall. They also were able to tryout some of the other obstacles like the salmon ladder, climb the rock wall and jump in the foam pit from the trampoline and the side.

Packing Operation Christmas Child Boxes

Thanks to all the families who donated items for the boxes. They are all packed with lots of soccer balls, dolls, play dough, soap, toothbrushes, colored pencils, paper and whatever else could fit.

The students had lots of fun deciding what to put in the box and getting the lids to close!

Upcoming Events for IS!

December

Class - Dec 1

Christmas Dress
Rehearsal
Dec 3 - 1-3 Setup
3-5:30 Rehearsal

Christmas Musical
Dec 4 @ 7 pm

IS Service Day - Dec 8

Class - Dec 15

Christmas Break
Dec 20-Jan 2

January

Class - Jan 5

Class - Jan 19
Speech Meet

February

Class - Feb 2

Class - Feb 16
Valentine Party
Coffee Chat

IS Educational Expo
Feb 23
