A WORD ABOUT SHOT DOCTOR FROM THE DIRECTOR

SHOT DOCTOR was founded in Denver, Colorado in 1981 by several coaches intent on combining the habit-changing skills utilized in mental cybernetics training with the constant need for improved shooting among young players. The result was a camp program which not only provides everything a player needs to know to become significantly better, but also establishes a formula for self-improvement which can apply to all areas of life. After becoming the sole owner of **SHOT DOCTOR** in 1986, I committed to continue providing the kind of camp experience that builds confidence, provides the tools and creates the environment necessary for the surge to excellence. Since 1981, **SHOT DOCTOR** has trained over 21,000 young players in more than 900 local camps across the U.S. We are very excited to be invited to your community. If you have any questions or comments about any part of your Shot Doctor experience feel free to email me at bobtopp@shot-doctor.com .
