Due to some new laws, we can no longer sell baby crib bumpers. We are going to go ahead and also not sell the mesh ones.

"As of [April 6th, 2017](#), Ohio will no longer sell non-mesh bumper pads. This ban follows three similar laws in Chicago, Maryland, and Watchung, New Jersey. The Ohio ban will be the second state-wide ban, a trend that we hope will continue until crib bumper pads are banned in all 50 states. The bans were recommended based on research done by the [American Academy of Pediatrics \(AAP\)](#) on safe sleep. According to the AAP, it is best for a baby to sleep on their back and in a bare crib. Unnecessary and excess bedding, such as bumper pads, blankets, or stuffed animals pose a suffocation, entrapment, or strangulation hazard.

The new law will still allow mesh crib bumper pads to be sold for [three years](#). After three years, the House of Representatives will review current research and the [Consumer Product Safety Commission's](#) regulations to see whether or not the renewed ban will include mesh crib bumper pads."

**ALSO**, we do NOT accept anything that is torn, stained nor has odor! Due to this, all multi piece outfits must be hung up or PINNED together. NOT tapped or in bags.

Attached you will find our registration, seller instructions and a car seat safety form. The only form I need back right now is the registration . Please note I added a time slot for workers. The 12-3 time slot is to help us clean up after the sale is over. Once I receive that back, I will send you your seller number. The car seat form is for anyone selling a car seat. This form needs to be filled out and attached to the car seat when it is brought to the sale.
